

Victor Gligor

Victor Gligor was born in Bucharest, Romania. At the age of five his family moved to Sibiu, where he grew up and was educated. Sibiu is one of the most beautiful cities of Transylvania which is located in center of Romania.

Victor discovered quite early his talent for painting. He enrolled himself in the School of Art in town excited at becoming a future artist. Seeing the artists struggling in that particular social-economic climate, the family decided it was better for the junior artist to pursue a carrier in science. This was the start of an engineering education and practice for over 25 years in Romania, Germany and Canada.

Victor never lost his passion for painting and the nature of the landscapes sealed in his soul the spiritual values that emerge into his artwork.

Artist Statement:

The main objective of my paintings is to capture colors, forms, mood and atmosphere. Nature has always energized me: the movement of a lake, the imposing presence of trees or mountains, etc. It feeds my entire spirit and inspires me to channel my perceptions onto my work.

The inspiration of my work comes from memories of a time, place or emotion that I encountered. In nature I find the most amazing colours and perfect imperfections, and I feel compelled to share my experience with everyone through my paintings.

I invite viewers to participate emotionally in discovering the beauty, majesty and uniqueness of the nature using their own imagination.
